

We are carrying out work to take care of the water supply in Fort Augustus and Glenmoriston

Two sections of the Great Glen Way are currently closed due to essential work that is being carried out by Scottish Water. Due to this work being carried out, sections of the path have to be closed in the interests of safety.

Main Map – The map opposite shows the areas closed and alternative routes in place.

Map 1 – Between Fort Augustus and Allt na Criche, please use the alternative route of Allt na Criche trail to connect to the Great Glen Way High Route.

Map 2 – Between Allt na Criche and Invermoriston, a signposted diversion is in place following the Great Glen Way High Route in both directions.

Pipe laying work in the Great Glen Way is due to be complete in Spring 2019. All areas of the Great Glen Way will be re-opened during main school holiday periods.

We hope that you enjoy your walk and would like to thank you for your patience and understanding while we complete this work.
