

# Taking care of the sewer network in Tay Street & Shore Road – Project Update.

We are continuing our upgrade works to the existing sewer in Tay Street and Shore Road to provide additional capacity to support the city's continuing growth, while also reducing the risk of sewer flooding affecting low-lying areas near the Tay between Muirton and the City Centre. The heavy rainfall has impacted the progress of our works recently as we need to suspend work on safety and flood prevention grounds resulting in delays during March.

## Update: Tay Street

The majority of the sewer upgrade on Tay Street has been completed, with a section of the road set to be open by the end of June. The over pumping has been switched off and will be relocated near to the Independent Advocacy. A full road reinstatement from kerb to kerb will then be carried out by Perth and Kinross Council prior to the road reopening.

Once this reinstatement works are carried out, Tay Street will be partially opened and act as a cul-de-sac. Entry and Exit will be from the junction of Canal Street. Tay Street will remain closed at the Railway Bridge. The traffic lights will be reactivated at the Canal Street Junction to control flow of traffic in/out of Tay Street North.

On street parking will be reinstated and available to use within the available cul-de-sac.

## During the next phase of work in Tay Street

- Access to rear car parks for 76-78 and 90 Tay Street will revert back to the original one-way entry and exit.

Image: Access in and out via Canal Street junction.

- Private car park to 72 Tay Street will be reopened

## Shore Road Update:

Work in Shore Road progressed well, the sewer pipes have been laid as far as the north entrance to South Inch car park.

We would like to thank the businesses for their patience and co-operation whilst we continue this section of work.

## Shore Road Traffic Management

The 3-way traffic lights in place on Edinburgh Road at the junction with Friarton Road are being manually controlled between the hours of 15:30pm and 17:30pm Monday -Friday. In addition, Cromlix Road will be closed at the junction with Friarton Road during the hours of 15:30PM-17:30PM Monday to Friday to prevent commuters utilising this road as a short cut.

The alternative exit route for HGVs **only** is still in operation via the roadway at the southern edge of the Lesser South Inch and will be in place until the end of the project.

Entry and Exit from the South Inch Car Park is from the top end of Shore Road via Marshall Place utilising the previous exit only. This will flip and Entry and Exit will be from the South via Friarton Road during this final phase of Shore Road Works approx. this summer. Please follow all signs.

Please note the car park is now Pay and Display as installed and operated by Perth and Kinross Council.

## Liaison Group:

If there are any questions or issues that you need to contact us about while we are working in Shore Road and Tay Street, the best way to do so at any time is via the details printed below, quoting reference **Capital/512555/CWA/Perth**.

To oversee the significant programme of investment that Scottish Water is delivering in Tay Street, Shore Road and elsewhere in Perth, an informal liaison group has been established to enable regular dialogue between members of our project team, councillors, other community representatives and local businesses. The group currently meet regularly to review progress and discuss any emerging issues.

If there is an issue that you would like to be discussed by the liaison group, you can raise this by contacting us in the usual way. If you would like to attend a meeting, please let us know and we will seek to accommodate this as far as possible.

We are working together with charity group Beautiful Perth to have gardening beds planted at Tay Street. You may have already noticed the work beginning in March. This is part of Scottish Water's plans to leave a legacy in Perth following on from the major project.

**Project Information:** Further information about our project can be found at [www.scottishwater.co.uk/Perth](http://www.scottishwater.co.uk/Perth)

**We thank you for your patience, co-operation and understanding whilst we continue these essential works.**

**If you have any further queries, please contact Scottish Water customer helpline on 0800 0778778 quoting 'Capital/512555/CWA/Perth'.**
